**Quotes from Letters of Recommendations**

"Dan continually showed his strong work ethic, particularly in group projects, where he took the lead in planning, was a strong team player and pushed to create quality products." –John Klapp

"I personally appreciated that Dan acknowledged our need to hear his progress and resolutions in laymen's terms; his ability to convey his analysis to any audience indicated that he truly understands his trade and can extrapolate from his experiences" – Roland Raquipiso

"Dan is very knowledgeable in various server operating systems, networking technologies, web design, and network security." – Wayman White
